Among the older artists whose work stimulated Leonardo's scientific interest was Piero della Francesca, then a man in his 60s, who was one of the earliest artists to systematically employ linear perspective in his paintings, and who had a greater understanding of the science of light than any other artist of his date. While Leonardo's teacher, Verrocchio, largely ignored Piero's scientifically ...

Naïve art is usually defined as visual art that is created by a person who lacks the formal education and training that a professional artist undergoes (in anatomy, art history, technique, perspective, ways of seeing). When this aesthetic is emulated by a trained artist, the result is sometimes called primitivism, pseudo-naïve art, or faux naïve art.
